Appointment of Engineering General Manager

The Directors of Bow Energy Limited (Bow) are pleased to announce the appointment of Dusan Pribilovic as Engineering General Manager responsible for implementing Bow's substantial drilling program including focusing efforts on achieving the Company's 2P reserve certification targets across Bow's diversified Coal Seam Gas (CSG) portfolio.

Mr Pribilovic has gained valuable upstream experience over the last 12 years with Tri-Star Petroleum Company and more recently with Origin Energy Limited. His experience covers a broad knowledge base encompassing all aspects of CSG appraisal, production and operations.

Bow's Managing Director, Ron Prefontaine commenting on the appointment said, "Dusan brings a wealth of drilling and field operations experience required to deliver our proposed CSG reserves certification timetable."

Mr Pribilovic is scheduled to start employment with Bow on 16 April 2009.

For and on behalf of the Board
Duncan Cornish
Company Secretary
